

— ADVANCED SOLUTIONS PLATFORM

Advanced Connect™

Remote monitoring
and telematics

See it. Know it. **Manage it.**

Power Has Always Moved. Now It Talks Back.

Most portable power distribution products only move electricity. Intelligent portable power distribution delivers visibility, control, and actionable insights that reduce downtime, improve safety, and maximize power utilization.

Real-Time Load Data

Alarm Status Indicator

Historical Trend View

Remote Access

Power Quality Monitoring

Revenue-Grade Energy Measurement

FEATURE-TO-BENEFIT QUICK REFERENCE

FEATURE	BENEFIT
Real-time monitoring	Immediate visibility of power conditions
Remote access	Fewer site visits
Alarm notifications	Faster response to issues
Historical data	Better planning and analysis
Cloud-based dashboard	Centralized system oversight

Three Ways to See Your Power

1

TIER 1

Local Power Metering

On-panel visibility at the point of use.

2

TIER 2

Remote Power Monitoring

Access power data from any connected device, on or off site.

3

TIER 3

Complete System & Multi-Circuit Monitoring

Full-system, multi-circuit visibility across the entire fleet.

WHAT ADVANCED CONNECT DELIVERS

Real-time electrical system visibility

Local and remote access to power usage information

Alarm and notification capabilities

Historical trend analysis

Improved fleet and asset management

Reduced site visits and troubleshooting costs

Built for Where Temporary Power Works Hardest.

APPLICATIONS BY MARKET

Construction

- Track changing site loads
- Optimize generator sizing

Industrial Shutdowns

- Monitor multiple temporary loads

Rental Companies

- Offer premium monitored equipment
- Reduce troubleshooting time
- Provide customers with usage insights

Data Centers

- Verify critical temporary power performance
- Capture power quality events

Emergency Power

- Maintain operational records

Entertainment & Live Events

- Monitor lighting, audio, and video loads
- Balance phases

AVAILABLE ON

- PowerRACK Indoor and Outdoor Distribution Systems
- Portable Rubber Distribution Boxes
